DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 44-49, drawn to the use of a polymer comprising water-soluble units and units with a low critical solution temperature (LCST) to lower the tension of water.

Group II, claim(s) 50-65, drawn to a foaming composition comprising a polymer comprising water-soluble units and units with a low critical solution temperature (LCST).

Group III, claim(s) 66-99, drawn to an oil-in-water emulsion comprising the foaming composition of group II.

Group IV, claim(s) 100-103, drawn to the cosmetic use of the foaming composition of group II.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature itself which links the claims 44-103, the polymer comprising water-soluble units and units with a low critical solution temperature, at least, is anticipated by or obvious over several prior art documents, including EP 583814 and EP 629649, as admitted to by applicant in the present disclosure (see page 1, lines 15-25 of the spec.).

Art Unit: 1713

Since, the special technical feature does not provide a contribution to the prior art, unity of invention is lacking.

2. A telephone call was made to Stefan Koeshmeider on 6/18 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Kelechi C. Egwim whose telephone number is (703) 306-5701. The examiner can normally be reached on M-T (7:30-6:00).
